

CMS PROVIDER ENROLLMENT MORATORIA

WHAT IT IS. WHY IT MATTERS. WHAT AGENCIES NEED TO KNOW.

To combat fraud, waste, and abuse in Medicare enrollment, CMS has implemented temporary moratoria affecting certain provider and supplier enrollments. Staying informed helps protect your ability to serve patients and grow your agency.

CMS MISSION

Protect the integrity of Medicare by preventing inappropriate enrollments through targeted, data-driven moratoria.

THE 2026 MEDICARE MORATORIUM

CMS has extended the temporary moratorium on enrollments for certain Medicare provider and supplier types in specific geographic areas through December 31, 2026.

IMPACT

Applications for new enrollments, changes of ownership, and revalidations in impacted areas may be suspended during this period. Always check eligibility before you apply.

WHY MORATORIA EXIST

COMBAT FRAUD, WASTE & ABUSE

Targeted moratoria help reduce suspicious enrollment activity in high-risk areas and provider types.

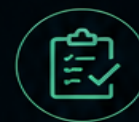

ENSURE PROGRAM INTEGRITY

Protects Medicare resources and ensures beneficiaries receive care from legitimate, qualified providers.

FOCUSED ON HIGH-RISK AREAS

Based on historical risk factors, including improper payment rates and patterns of concern.

TEMPORARY BY DESIGN

Moratoria are reviewed periodically and lifted when risk levels decrease and safeguards are in place.

WHAT AGENCIES SHOULD DO

- ✓ Check your enrollment eligibility in PECOS before applying.
- ✓ Monitor CMS updates and moratoria announcements.
- ✓ Ensure all documentation is accurate, complete, and up to date.
- ✓ Work with experts who understand CMS enrollment requirements.

WHERE TO CHECK

Visit the official CMS page for the latest information, impacted areas, and provider types.
